LinkedIn Profile: [linkedin.com/in/yuki-sakata-ys](https://www.linkedin.com/in/yuki-sakata-ys)

A highly motivated, interested in learning new things, MSc student in Computing at Cardiff University, currently looking for a placement in the tech field. I have a unique and diverse background and can adapt quickly to changing environments, multitask, and communicate with different people. Presently, I mainly study website development using HTML and CSS, basic programming languages such as Python and JavaScript, and software engineering. Also, due to my previous experience in helping to launch products, I have a strong interest in UI/UX and plan to study Human Centric Computing in an optional module.

EDUCATION

9/2022 – 9/2024
